

## What is the **String Display Board**?

### OVERVIEW

With one of the largest string ranges available, Polytec are giving our customer's the opportunity to showcase the full range with their own custom made string display made.

Each board is custom design for you by our designers at no charge.

The standard board measures 120cm high x 100cm wide, but the size can easily be modified to suit your available space. The purpose of the customized board is to help drive your business by not only displaying the string range, but by featuring your business name and contact details for everyone to see.

What better advertising and promotion than having a custom made display that showcases an impressive full string range, and featuring your own brand, logo, and website?

Now for the best news.....

- Our designers will create the design for you at no charge.
- A digital proof of the board will be sent for your approval before it is made.

## Examples of Completed Display Boards

### PROVEN SUCCESS

The Display boards have proven to be extremely popular. Over 100 boards have already been produced for customers all over Australia. Examples of some of these completed projects are shown below.

To order your own board contact us on (03) 9758 0777.
